**DEFENDANT AVENTIS PHARMACEUTICALS INC.'S RESPONSES AND
OBJECTIONS TO PLAINTIFFS' THIRD SET OF
REQUESTS FOR PRODUCTION OF DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26, 33 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Defendant Aventis Pharmaceuticals Inc. (Aventis), by its undersigned counsel, hereby responds to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants (the "Requests") as follows:

GENERAL OBJECTIONS

Defendant expressly incorporates by reference all "General Objections" set forth in its Responses and Objections to Plaintiffs' Omnibus Requests for Production and Interrogatories, which apply to the Requests in their entirety, including the Definitions, Instructions and Relevant Time Period. Further, Defendant objects to the definition of "you" and "your" as set forth in Plaintiff's Definition No. 4 to the extent it requires the production of documents protected by the attorney-client privilege, work-product doctrine or other applicable privilege or protection. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in the General Objections. In addition, Defendant objects to the Requests on the grounds that Plaintiffs have not sought an order from the Court permitting more than two separate requests for production, pursuant to Local Rule 26.1. Any Specific Objections

provided below are made in addition to these General Objections. Insofar as any Request seeks information to which the afore-mentioned Objections to Plaintiffs' Definitions, Instructions and Relevant Time Period apply, Aventis' specification or failure to note particular Objections to Plaintiffs' Definitions, Instructions and Relevant Time Period in the Specific Objections below shall not constitute a waiver or limitation of those Objections to Plaintiffs' Definitions, Instructions and Relevant Time Period with respect to any individual Request.

SPECIFIC RESPONSES TO REQUESTS FOR PRODUCTION

Request No. 1:

All documents produced to you by any third party.

Response:

Defendant objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require Defendant to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. Defendant further objects to this Request to the extent that it purports to require Defendant to produce documents that it is prohibited by protective order or contract from disclosing. Defendant further objects to this Request as duplicative on the ground that Defendant has previously agreed with plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. However, Defendant objects to this Request to the extent that it purports to require production of documents produced to the Defendant in this action by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendant, on the ground that (i) CMS, a government entity, required Defendant to pay its cost (and that of the U.S. Department of Justice) of collecting, reviewing and producing

such documents, (ii) Defendant has previously offered to provide copies of CMS' production to plaintiffs in exchange for plaintiffs' payment of half of the cost charged by CMS and the Department of Justice, and (iii) plaintiffs have refused to share that cost. Defendant similarly objects to providing plaintiffs with any third party productions for which Defendant has been required to pay the costs of the third party unless plaintiffs agree to share that cost.

Request No. 2:

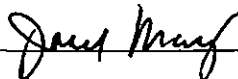

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

Defendant objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation and on its face purports to require Defendant to search for and produce all correspondence with any putative class member – which, in light of plaintiffs' overly expansive purported class definition, includes entities or persons with which Defendant may have had commercial relationships since 1991, without regard for whether such correspondence has any relationship to any issue in this litigation. Defendant further objects to this Request on the ground that plaintiffs effectively sought similar relief from the Court in their Motion for a Protective Order Regarding Subpoenas to Putative Class Members and such Motion was denied by the Court.

FOR PRODUCTION OF DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Defendant, TAP Pharmaceutical Products Inc. ("TAP"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set Of Requests For Production Of Documents To All Defendants (the "Requests") as follows:

GENERAL OBJECTIONS

TAP expressly incorporates by reference its "General Objections to Requests and Interrogatories" and all of its objections to "Definitions," "Rules of Construction," "Instructions," "Drugs at Issue," and "Relevant Time Period" as set forth in Defendant TAP Pharmaceutical Products Inc.'s Responses To Plaintiffs' Omnibus Requests For Production And Interrogatories To Defendants Abbott, Amgen, Aventis, Baxter, Bayer, Boehringer, Braun, Dey, Fujisawa, Novartis, Pfizer, Pharmacia, Sicom, TAP And Watson And To All Other Defendants With Respect To Drugs That Were Not Previously Subject To Discovery served on Plaintiffs on June 1, 2004 (hereinafter referred to as "TAP's Responses to Plaintiffs' Omnibus Requests"), which apply to the Requests in their entirety, including the Definitions, Instructions and Relevant

Time Period. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in TAP's Responses to Plaintiffs' Omnibus Requests. In addition, TAP objects to the Requests on the grounds that Plaintiffs have not sought an order from the Court permitting more than two separate requests for production, pursuant to Local Rule 26.1. Any Specific Objections provided below are made in addition to these General Objections and failure to reiterate a General Objection below does not constitute a waiver or limitation of that or any other objection.

SPECIFIC RESPONSES TO REQUESTS FOR PRODUCTION

Request No. 1:

All documents produced to you by any third party.

Response:

TAP objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require TAP to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. TAP objects to this Request to the extent it seeks documents produced by third parties to TAP in other litigation in which TAP is a party, including but not limited to documents produced in *In re Lupron® Marketing and Sales Practices Litigation*, MDL 1430. TAP further objects to this Request to the extent that it purports to require TAP to produce documents that it is prohibited by protective order or contract from disclosing. TAP further objects to this Request as duplicative on the ground that Defendants have previously agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served in connection with MDL 1456. TAP, however, objects to this Request to the extent that it purports to require production of documents

produced to Defendants in this action by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendants, on the ground that (i) CMS, a government entity, required Defendants to pay its cost (and that of the U.S. Department of Justice) of collecting, reviewing and producing such documents, (ii) Defendants have previously offered to provide copies of CMS' production to Plaintiffs in exchange for Plaintiffs' payment of half of the cost charged by CMS and the Department of Justice, and (iii) Plaintiffs have refused to share that cost. TAP similarly objects to providing Plaintiffs with any third party productions for which Defendants have been required to pay the costs of the third party unless Plaintiffs agree to share that cost.

Request No. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

TAP objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation and on its face purports to require TAP to search for and produce all correspondence with any putative class member – which, in light of Plaintiffs' overly expansive purported class definition, includes entities or persons with which TAP may have had commercial relationships since 1991, without regard for whether such correspondence has any relationship to any issue in this litigation. TAP also objects to this Request to the extent it seeks correspondence with putative class members of other litigation in which TAP is a party, including but not limited to correspondence with putative class members in *In re Lupron® Marketing and Sales Practices Litigation*, MDL 1430. TAP further objects to this Request on

the ground that Plaintiffs effectively sought similar relief from the Court in their Motion for a Protective Order Regarding Subpoenas to Putative Class Members and such Motion was denied by the Court.

FOR PRODUCTION OF DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Defendant, Abbott Laboratories ("Abbott"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set Of Requests For Production Of Documents To All Defendants (the "Requests") as follows:

GENERAL OBJECTIONS

Abbott expressly incorporates by reference its "General Objections to Requests and Interrogatories" and all of its objections to "Definitions," "Rules of Construction," "Instructions," "Drugs at Issue," and "Relevant Time Period" as set forth in Defendant Abbott Laboratories' Responses To Plaintiffs' Omnibus Requests For Production And Interrogatories To Defendants Abbott, Amgen, Aventis, Baxter, Bayer, Boehringer, Braun, Dey, Fujisawa, Novartis, Pfizer, Pharmacia, Sicor, TAP And Watson And To All Other Defendants With Respect To Drugs That Were Not Previously Subject To Discovery served on Plaintiffs on June 1, 2004 (hereinafter referred to as "Abbott's Responses to Plaintiffs' Omnibus Requests"), which apply to the Requests in their entirety, including the Definitions, Instructions and Relevant Time

Period. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in Abbott's Responses to Plaintiffs' Omnibus Requests. Aimée E. Bierman

Plaintiffs' attempt to obtain discovery prior to January 30, 2005, the presently specified date for the close of Phase 1 discovery and beginning of Phase 2.

2. Sicor objects to Plaintiffs' Requests in their entirety as unduly burdensome in that Plaintiffs' Third Set of Request for Production exceeds the limit for document production requests established under LR D. Mass 26.1(c), which expressly states that "each side, or group of parties with a common interest [are limited to] two (2) separate sets of requests for production."

3. Sicor objects to Plaintiffs' definitions and instructions to the extent they purport to impose obligations on Sicor beyond those imposed by the applicable discovery rules, and Sicor will not comply with any such non-conforming definitions or instructions.

4. Sicor incorporates by reference herein its objections to Plaintiffs' "Definitions," "Rules of Construction," "Drugs at Issue," "Relevant Time Period," as set forth in its Sicor's Objections to Plaintiff's Omnibus Requests for Production and Interrogatories.

5. Sicor objects to the use of the acronym "AWPID" in Definition No. 8, which is defined in the Amended Master Consolidated Class Action Complaint ("AMCC") as "AWP Inflated Drugs" as vague and ambiguous as well as lacking any factual foundation and relying upon a legal conclusion.

6. Sicor objects to each and every Request to the extent it calls for documents generated or assembled either prior to January 1, 1997 or after September 6, 2002, on the grounds that such documents are neither relevant to the subject matter of the pending action nor reasonably calculated to lead to the discovery of admissible evidence.

7. Sicor objects to each and every Request to the extent it seeks the production of communications and documents protected by the attorney-client privilege, work-product doctrine or any other applicable privileges or discovery doctrines.

8. Sicor objects to each and every Requests to the extent it purports to require production of confidential, proprietary or trade secret information regarding its products, business activities, and strategies.

9. Sicor objects to each and every Request to the extent it seek the production of information or documents which: (a) are not in Sicor's control or possession; (b) are already in Plaintiffs' custody, control or possession; or (c) are obtainable with equal or greater facility by the Plaintiffs.

10. Sicor objects to each and every Request and Interrogatory as overly broad and unduly burdensome to the extent it seeks production of information relating to drugs other than Amikacin Sulfate, Acyclovir Sodium, Amphotericin B, Doxorubicin, Etoposide, Leucovorin, Pentamidine Isethionate and Tobramycin Sulfate -- the drugs at issue in this litigation which, according to the unproven allegations in the AMCC, implicate Sicor. Accordingly, Sicor will only produce information relating to these specified drugs.

11. Sicor objects to each and every Request to the extent that it seeks information not contained in documents that exist and require Sicor to create, compile or develop new documents.

12. Sicor objects to each and every Request and Interrogatory to the extent it seeks production of documents or information not in the control or custody of Sicor, that are publicly available or equally available to Plaintiffs.

13. Sicor objects to the production of documents and information which may be responsive to these Requests which were previously provided to plaintiffs pursuant to the court's October 28, 2002 Order and CMO 10, as unduly burdensome and duplicative.

**II. SICOR'S RESPONSES AND SPECIFIC OBJECTIONS TO
PLAINTIFFS' THIRD SET OF REQUESTS FOR PRODUCTION OF DOCUMENTS
TO ALL DEFENDANTS**

1. All documents produced to you by any third party.

Sicor objects to this Request as vague, ambiguous, overly broad and unduly burdensome and calling for the production of documents subject to the attorney-client privilege and/or the work product doctrine.

As set forth in Plaintiffs' Requests, Plaintiffs seek documents from January 1, 1991 through the present which were "produced" to Sicor by any third party and which "relate in whole or in part to such period, or to events and circumstances during such period, even though dated, prepared, generated or received prior or subsequent to that period." *See* Plaintiffs' Requests, IV. Plaintiffs have made no attempt to reasonably limit the scope of their requests to the subject matter of this litigation, nor have they define the term "produced." Consequently, the Request, as written, calls for Sicor to produce virtually every document "produced" or received by Sicor from any third party, regardless of the subject matter and its relevance to this proceeding. Accordingly, Sicor cannot produce any responsive documents.

Finally, as set forth in Sicor's General Objection No. 2, above, the Requests are unduly burdensome on their face because LR D. Mass. 26.1 (c) limits document requests to two sets per side.

2. All correspondence with any putative class member or with any attorney representing any putative class member.

Sicor objects to this Request as vague, ambiguous, overly broad and unduly burdensome and calling for the production of documents subject to the attorney-client privilege and/or the work product doctrine.

As set forth in Plaintiffs' Requests, Plaintiffs seek all correspondence from January 1, 1991 through the present which "relate[s] in whole or in part to such period, or to events and circumstances during such period, even though dated, prepared, generated or received prior or subsequent to that period." *See* Plaintiffs' Requests, IV. Plaintiffs have not reasonably limited the scope of their requests to the subject matter of this litigation. In addition, Plaintiffs have made no attempt to define the term "putative class member" and no class has yet been certified in these consolidated actions. Accordingly, Sicor has no way of knowing who may reasonably be considered a "putative class member." Consequently, the Request calls for Sicor to produce virtually all correspondence from unknown and presently unknowable persons, regardless of the subject matter of any such correspondence and its relevance to this proceeding. Therefore, Sicor cannot produce any responsive documents.

In addition the Request, as written, is unduly burdensome in that it calls for Sicor to produce correspondence with "any attorney representing any putative class member," which would include correspondence between Sicor and Sicor representatives and the Plaintiffs' attorneys. Since, Plaintiffs' are able to obtain such correspondence with equal or greater facility than can Sicor, *to wit*, through their own attorneys, the Request is unduly burdensome.

Finally, as set forth in Sicor's General Objection No. 2, above, the Requests are unduly burdensome on their face because LR , D. Mass. 26.1 (c) limits document requests to two sets per side.

Subject to and without waiving these objections, with the exception of correspondence between Sicor's attorneys and the Plaintiffs' attorneys, Sicor has no documents responsive to this Request.

**RESPONSE OF DEFENDANTS BRISTOL-MEYERS SQUIBB COMPANY,
ONCOLOGY THERAPEUTICS NETWORK CORPORATION AND APOTHECON,
INC. TO PLAINTIFFS' THIRD SET OF REQUESTS FOR PRODUCTION OF
DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Defendants Bristol-Myers Squibb Company, Oncology Therapeutics Network Corporation and Apothecon, Inc. (collectively "BMS"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants (the "Third Set of Requests") as follows:

PRELIMINARY STATEMENT

1. These responses are made solely for the purposes of this action. Each response is subject to all objections as to competence, relevance, materiality, propriety, and admissibility, and to any and all other objections on any grounds that would require the exclusion of any statements contained herein if such document requests were asked of, or statements contained herein were made by, a witness present and testifying in court, all of which objections and grounds are expressly reserved and may be interposed at the time of trial.

2. BMS' responses shall not be deemed to constitute admissions:

- a. that any particular document or thing exists, is relevant, non-privileged, or admissible in evidence; or
 - b. that any statement or characterization in Plaintiffs' Third Set of Requests is accurate or complete.
3. BMS' responses are made based upon the typical or usual interpretation of words contained in Plaintiffs' Third Set of Requests, unless a specific definition or instruction has been provided.
4. BMS' responses to Plaintiffs' Third Set of Requests contain information subject to the stipulated Protective Order in this matter and must be treated accordingly.
5. BMS reserves its right to provide further responses as additional facts are ascertained.

GENERAL OBJECTIONS

BMS expressly incorporates by reference all "General Objections" set forth in its Response to Plaintiffs' Omnibus Requests for Production and Interrogatories, which apply to Plaintiffs' Third Set of Requests in their entirety, including the Definitions, Instructions and Relevant Time Period. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in such General Objections. In addition, BMS objects to the Third Set of Requests on the ground that Plaintiffs have not sought an order from the Court permitting more than two separate requests for production, pursuant to Local Rule 26.1. Any Specific Objections provided below are made in addition to these General Objections and failure to reiterate a General Objection below does not constitute a waiver or limitation of that or any other objection.

SPECIFIC OBJECTIONS

Request No. 1:

All documents produced to you by any third party.

Response:

BMS objects to Request No. 1 on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to the issues in this litigation, and on its face purports to require BMS to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. BMS also objects to this Request on work product privilege grounds to the extent that it seeks discovery of counsel's efforts to investigate and defend this case. BMS further objects to this Request to the extent that it purports to require BMS to produce documents that it is prohibited by protective order or contract from disclosing. BMS further objects to this Request as duplicative on the ground that Defendants previously agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. BMS also objects to this Request to the extent that it purports to require production of documents produced to Defendants in these action by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendants, on the ground that (i) CMS, a government entity, required Defendants to pay its cost (and that of the U.S. Department of Justice) of collecting, reviewing and producing such documents, (ii) Defendants have previously offered to provide copies of CMS' production to plaintiffs in exchange for Plaintiffs' payment of half of the cost charged by CMS and the Department of Justice, and (iii) Plaintiffs have refused to share that cost. BMS similarly objects to providing Plaintiffs with any third party productions for which it has been required to pay the costs of the third party unless Plaintiffs agree to share that cost.

Request No. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

BMS objects to Request No. 2 on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to the issues in this litigation and on its face purports to require BMS to search for and produce all correspondence with any putative class member since 1991– which, in light of Plaintiffs’ overly expansive purported class definition, includes entities or persons with which BMS may have commercial relationships, without regard for whether such correspondence has any relationship to any issue in this litigation. BMS further objects to this Request on the ground that Plaintiffs effectively sought similar relief from the Court in their Motion for a Protective Order Regarding Subpoenas to Putative Class Members and such motion was denied by the Court. BMS also objects to this request on work product privilege grounds to the extent that it seeks discovery of counsel’s efforts to investigate and defend this case.

Pursuant to Rules 26, 33 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Defendant SmithKline Beecham Corporation dba GlaxoSmithKline ("GSK"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants (the "Requests") as follows:

GENERAL OBJECTIONS

GSK expressly incorporates by reference all "General Objections" set forth in its Responses and Objections to Plaintiffs' Omnibus Requests for Production and Interrogatories, which apply to the Requests in their entirety, including the Definitions, Instructions and Relevant Time Period. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in such General Objections. **BAXTER INTERNATIONAL INC. AND BAXTER HEALTHCARE
CORPORATION'S RESPONSES AND OBJECTIONS TO PLAINTIFFS' THIRD SET
OF REQUESTS FOR PRODUCTION OF DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and the Case Management Orders of this Court, Defendants Baxter International Inc. and Baxter Healthcare Corporation (collectively, "Baxter"), by their undersigned counsel, hereby respond to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants ("Document Requests"), served on July 14, 2004, as follows:

I. PRELIMINARY STATEMENT

Preliminarily, Baxter states as follows:

1. By responding to these Document Requests, Baxter does not waive or intend to waive: (a) any objections as to the competency, relevancy, materiality, privilege, or admissibility as evidence, for any purpose, of any documents or information produced in response to the Document Requests; (b) the right on any ground to the use of the documents or information produced in response to the

Document Requests at any hearing, trial, or other point during the litigation; or (c) the right to object on any ground at any time to a demand for further response to the Document Requests.

2. No objection made herein, or lack thereof, is an admission by Baxter as to the existence or non-existence of any documents or information.

3. Baxter reserves the right to amend or supplement these objections consistent with the applicable rules.

II. GENERAL OBJECTIONS

1. Baxter incorporates by reference herein all of its objections, both general and specific, from Baxter International Inc. and Baxter Healthcare Corporation's Objections and Responses to Plaintiffs' Omnibus Requests for Production and Interrogatories, dated June 1, 2004, which apply to Plaintiffs' Document Requests in their entirety. These incorporated objections include but are not limited to all objections to Plaintiffs' "Definitions," "Rules of Construction," "Instructions," "Drugs at Issue," and "Relevant Time Period."

2. In addition, Baxter objects to the Document Requests on the ground that Plaintiffs have not sought an order from the Court permitting more than two separate requests for the production of documents, as required by Local Rule 26.1(c).

3. Any Specific Objections provided below are made in addition to these General Objections and failure to reiterate a General Objection below does not constitute a waiver or limitation of that or any other objection.

III. SPECIFIC RESPONSES AND OBJECTIONS TO THE DOCUMENT REQUESTS

Subject to the General Objections, and without waiving and expressly preserving all such objections, which are hereby incorporated into the response to each Document Request, Baxter responds to Plaintiffs' individually numbered Document Requests as follows:

Document Request No. 1:

All documents produced to you by any third party.

Response:

Baxter objects to Document Request No. 1 on the grounds that it is overly broad, unduly burdensome, and not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require Baxter to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. Baxter further objects to this Document Request to the extent it purports to require Baxter to produce documents that a protective order or contract prohibits Baxter from disclosing.

Baxter also notes that Defendants have agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. Thus, Baxter objects to this Document Request as duplicative.

Furthermore, Baxter objects to this Document Request to the extent that it purports to require Baxter to produce documents that the Centers for Medicare and Medicaid Services ("CMS") produced to Defendants in this action in response to a subpoena served by Defendants. Prior to producing these documents, CMS, a government entity, demanded that Defendants pay its cost (and that of the U.S.

Department of Justice) of collecting, reviewing and producing such documents. Defendants have offered previously to provide copies of CMS' production to Plaintiffs in exchange for Plaintiffs' payment of half of the cost charged by CMS and the Department of Justice. Plaintiffs, however, refused to share that cost.

Baxter similarly objects to providing Plaintiffs with any third party productions for which Defendants have been required to pay the costs of the third party unless Plaintiffs agree to share those costs.

Document Request No. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

Baxter objects to Document Request No. 2 on the grounds that it is overly broad, unduly burdensome, and not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require Baxter to search for and produce all correspondence with any putative class member without regard for whether such correspondence has any relationship to any issue in this litigation. In light of Plaintiffs' overly expansive purported class definition, the scope of this Document Request includes all entities or persons with which Baxter may have had commercial relationships since 1991.

Baxter further objects to this Document Request on the ground that Plaintiffs effectively sought similar relief from the Court in their Motion for a Protective Order Regarding Subpoenas to Putative Class Members and the Court denied such Motion.

**B. BRAUN OF AMERICA INC.'S OBJECTIONS AND RESPONSES TO PLAINTIFFS'
THIRD SET OF REQUESTS FOR PRODUCTION OF DOCUMENTS TO ALL
DEFENDANTS**

Defendant B. Braun of America Inc. ("BBA"), pursuant to Federal Rules of Civil Procedure 26, 33, and 34, through undersigned counsel, propounds the following objections and responses to the Plaintiffs' Third Set of Requests for Production of Documents to All Defendants ("Third Document Request"). BBA reserves its right to supplement these objections and responses.

As stated in its Motion to Dismiss, BBA is not a proper party to this litigation. This Court lacks jurisdiction and venue over BBA. Moreover, BBA neither manufactures nor sells any of the pharmaceuticals listed in Appendix A to the Amended Master Consolidated Class Action Complaint ("AMCC"). As a result, BBA has no reason to believe that it has responsive documents or information in its possession relating to the subject matter of this litigation. However, BBA has requested that its separately incorporated subsidiary, B. Braun Medical Inc. ("BBM"), consider the Third Document Request as if it had been properly directed to and served upon BBM, without waiver of BBA's position that it is not properly before this Court.

GENERAL OBJECTIONS

BBA asserts the following General Objections, which are incorporated into the specific Responses by reference. These General Objections govern the scope of any document search and production by or for BBA.

1. BBA objects to the Third Document Request to the extent that it requires BBA to undertake steps beyond those required by Rules 26, 33, and 34 of the Federal Rules of Civil Procedure.
2. BBA objects to the Third Document Request to the extent that it requires BBA to undertake steps beyond those required by Case Management Order No. 10 or any other Orders of the Court in this litigation.

3. BBA objects to the Third Document Request on the grounds that the plaintiffs have not received leave from the Court, as required by Local Rule 26.1, prior to serving a third request for the production of documents.
4. BBA objects to the Third Document Request to the extent that it requests the production of documents or information protected by the attorney-client privilege, the attorney work product doctrine, other common law or statutory privileges, or otherwise immune from discovery. BBA expressly reserves the right to assert any and all applicable common law, statutory, or other legal privileges. BBA objects to the Third Document Request to the extent that it would require counsel for BBA or BBM to disclose or prepare a log of documents and information prepared by or for counsel in anticipation of, or for the purpose of, litigation. However, with the exception of documents or information prepared in anticipation, or for the purpose, of litigation, BBA will identify documents withheld on the basis of privilege on a privilege log to the extent required by Fed. R. Civ. P. 26(b)(5).
5. BBA objects to the Third Document Request to the extent that it requests the production of documents or information not relevant to the subject matter of the case or not reasonably calculated to lead to the discovery of admissible evidence.
6. BBA objects to the Third Document Request as overly broad and unduly burdensome to the extent that it requests the production of documents or information that are published, publicly available, or otherwise generally accessible to all parties.
7. BBA objects to the Third Document Request to the extent that it calls for the production of documents or information protected by any Protective Order in another case or subject to confidentiality agreements with, or licensing restrictions imposed by, third parties.

8. BBA objects to the Third Document Request on the ground that it is overly broad and unduly burdensome, if full compliance with it as written were to be required. BBA believes that any such document discovery would be “unreasonably cumulative or duplicative” and that the “burden or expense of the [any such] proposed discovery would outweigh its likely benefit.” *See* Fed. R. Civ. P. 26(b)(2).
9. BBA objects to the Third Document Request to the extent that it requests BBA to produce documents beyond BBA’s or BBM’s possession, custody, or control. Any such request is overly broad and unduly burdensome and inconsistent with, and imposes obligations beyond, the obligations required under the Federal Rules of Civil Procedure. BBA does not intend to search for documents that are in the possession of any third party other than BBM, as such discovery would be “unreasonably cumulative or duplicative” and the “burden or expense of the [any such] proposed discovery would outweigh its likely benefit.” *See* Fed. R. Civ. P. 26(b)(2).
10. BBA objects to the Third Document Request to the extent that it calls for the production of documents and information relating to products other than the drugs of “B. Braun McGaw” listed in Appendix A of the AMCC, which drugs are referred to herein as the “Subject Drugs.” Such an interpretation is overly broad and unduly burdensome and relates to information that is neither relevant to this litigation nor reasonably calculated to lead to the discovery of admissible evidence.
11. BBA objects to the Third Document Request to the extent that it does not specify a “reasonable time, place, and manner of making the inspection.” *See* Fed.R.Civ.P. 34(b).
12. BBA reserves the right to assert additional objections or to supplement these Objections and Responses.

I. DEFINITIONS

1. BBA incorporates by reference herein all objections and responses to the "Definitions," "Rules of Construction," "Instructions," "Drugs at Issue," and "Relevant Time Period" from its Objections and Responses to Plaintiffs' Omnibus Requests for Production and Interrogatories To Defendants Abbott, Amgen, Aventis, Baxter, Bayer, Boehringer, Braun, Dey, Fujisawa, Novartis, Pfizer, Pharmacia, Sicor, TAP, and Watson And To All Other Defendants With Respect To Drugs That Were Not Previously Subject To Discovery.
2. BBA objects to Definitions Nos. 7, 8, 10, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 26, 27, 28, 30, 31, 32, and 33 as irrelevant and inapplicable to the Third Document Request.

SPECIFIC OBJECTIONS

REQUESTS FOR PRODUCTION

REQUEST FOR PRODUCTION NO. 1:

All documents produced to you by any third party.

RESPONSE:

BBA objects to this Request as vague and ambiguous and overly broad and unduly burdensome to the extent that "third party" is not a defined term and could reasonably include within its scope any and all entities other than BBA and the plaintiffs. BBA objects to this Request as vague and ambiguous to the extent that "produced" is not a defined term within this Third Request. BBA objects to this Request as overly broad and unduly burdensome to the extent that it is not limited to documents relevant to this litigation nor reasonably calculated to

lead to the discovery of admissible evidence, but rather reasonably includes within its scope all documents of any type produced to BBA by any third party for any purpose during the Relevant Time Period. BBA further objects to this Request as unduly burdensome and duplicative on the grounds that the Defendants previously reached an agreement with the plaintiffs regarding the sharing of documents produced in response to subpoenas served on third parties with respect to this litigation. BBA also objects to this Request to the extent that it calls for the production of documents produced to the Defendants in this litigation by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendants, on the grounds that CMS required the Defendants to pay the costs of collecting, reviewing, and producing these documents, but the plaintiffs refuse to share that cost. Defendants' previous offer to provide copies of these documents in exchange for payment of one-half of the cost charged by CMS having been rejected by the plaintiffs, it would be unduly burdensome to require BBA to produce these documents to the plaintiffs for no cost. Similarly, BBA objects to this Request to the extent that it calls for the production of documents produced by other third parties that have required the Defendants to pay the costs associated with the production, and the plaintiffs continue to refuse to share the costs of those productions. However, without waiving any of its objections, BBA states that no third party has produced documents to it in this litigation.

REQUEST FOR PRODUCTION NO. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

RESPONSE:

BBA objects to this Request as vague and ambiguous and overly broad and unduly burdensome to the extent that "putative class member" has not been defined within this Third Request. BBA objects to this Request as overly broad and unduly burdensome and neither

relevant to this litigation nor reasonably calculated to lead to the discovery of admissible evidence to the extent that it calls for all correspondence of any kind with any putative class member and is not limited to correspondence that has any relevance to any issue in this litigation. BBA further objects to this Request to the extent that it calls for information produced by BBA in response to plaintiffs' previous requests for production. BBA also objects to this Request as overly broad and unduly burdensome and neither relevant to this litigation nor reasonably calculated to lead to the discovery of admissible evidence to the extent that the plaintiffs were denied such relief by the Court in response to their Motion for a Protective Order Regarding Subpoenas to Putative Class Members. However, without waiver of its objections, BBA states that it has not had any correspondence with any putative class member or with any attorney representing any putative class member in this litigation.

**II. IMMUNEX'S OBJECTIONS AND RESPONSES TO REQUESTS
FOR PRODUCTION**

REQUEST FOR PRODUCTION NO. 1:

All documents produced to you by any third party.

RESPONSE:

Immunex objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require Immunex to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. Immunex further objects to this Request to the extent that it purports to require Immunex to produce documents that it is prohibited by protective order or contract from disclosing. Immunex further objects to this Request as duplicative on the ground that Defendants have previously agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. However, Immunex objects to this Request to the extent that it purports to require production of documents produced to the Defendants in this action by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendants, on the ground that (i) CMS, a government entity, required Defendants to pay its cost (and that of the U.S. Department of Justice) of collecting, reviewing and producing such documents, (ii) Defendants have previously offered to provide copies of CMS' production to Plaintiffs in exchange for Plaintiffs' payment of half of the cost charged by CMS and the Department of Justice, and (iii) Plaintiffs have refused to share that cost. Immunex similarly objects to providing

plaintiffs with any third party productions for which Defendants have been required to pay the costs of the third party unless Plaintiffs agree to share that cost.

REQUEST FOR PRODUCTION NO. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

RESPONSE:

Immunex objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation and on its face purports to require Immunex to search for and produce all correspondence with any putative class member – which, in light of plaintiffs' overly expansive purported class definition, includes entities or persons with which Immunex may have had commercial relationships since 1991, without regard for whether such correspondence has any relationship to any issue in this litigation. Immunex further objects to this Request on the ground that plaintiffs effectively sought similar relief from the Court in their Motion for a Protective Order Regarding Subpoenas to Putative Class Members and such Motion was denied by the Court.

SPECIFIC RESPONSES TO REQUESTS FOR PRODUCTION

Request No. 1:

All documents produced to you by any third party.

Response:

The Johnson & Johnson Companies object to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require The Johnson & Johnson Companies to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. The Johnson & Johnson Companies further object to this Request to the extent that it purports to require The Johnson & Johnson Companies to produce documents that they are prohibited by protective order or contract from disclosing. The Johnson & Johnson Companies further object to this Request as duplicative on the ground that Defendants have previously agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. to share that cost. The Johnson & Johnson Companies similarly object to providing plaintiffs with any third party productions for which Defendants have been required to pay the costs of the third party unless Plaintiffs agree to share that cost.

Request No. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

**RESPONSES AND OBJECTIONS OF ASTRAZENECA PHARMACEUTICALS LP TO
PLAINTIFFS' THIRD SET OF REQUESTS FOR PRODUCTION OF DOCUMENTS TO
ALL DEFENDANTS**

Pursuant to Rules 26, 33 and 34 of the Federal Rules of Civil Procedure and the Local Rules of the United States District Court for the District of Massachusetts, AstraZeneca Pharmaceuticals LP ("AstraZeneca"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants (the "Requests") as follows:

GENERAL OBJECTIONS

AstraZeneca expressly incorporates by reference all "General Objections" set forth in its Responses and Objections to Plaintiffs' Omnibus Requests for Production and Interrogatories, which apply to the Requests in their entirety, including the Definitions, Instructions and Relevant Time Period. Unless otherwise indicated, all capitalized defined terms shall have the same meaning ascribed in the such General Objections. In addition, AstraZeneca objects to the Requests on the grounds that Plaintiffs have not sought an order from the Court permitting more than two separate requests for production, pursuant to Local Rule 26.1. Any Specific Objections provided below are made in addition to these General Objections and failure to reiterate a General Objection below does not constitute a waiver or limitation of that or any other objection.

SPECIFIC RESPONSES TO REQUESTS FOR PRODUCTION

Request No. 1:

All documents produced to you by any third party.

Response:

AstraZeneca objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation, and on its face purports to require AstraZeneca to search for and produce all documents produced to it by any third party, regarding any topic, since 1991. AstraZeneca further objects to this Request to the extent that it purports to require AstraZeneca to produce documents that it is prohibited by protective order or contract from disclosing. AstraZeneca further objects to this Request as duplicative on the ground that Defendants have previously agreed with Plaintiffs to exchange documents produced in response to third party subpoenas served with respect to this litigation. However, AstraZeneca objects to this Request to the extent that it purports to require production of documents produced to the Defendants in this action by the Centers for Medicare and Medicaid Services ("CMS") in response to a subpoena served by Defendants, on the ground that (i) CMS, a government entity, required Defendants to pay its cost (and that of the U.S. Department of Justice) of collecting, reviewing and producing such documents, (ii) Defendants have previously offered to provide copies of CMS' production to Plaintiffs in exchange for Plaintiffs' payment of half of the cost charged by CMS and the Department of Justice, and (iii) Plaintiffs have refused to share that cost. AstraZeneca similarly objects to providing plaintiffs with any third party productions for which Defendants have been required to pay the costs of the third party unless Plaintiffs agree to share that cost.

Request No. 2:

All correspondence with any putative class member or with any attorney representing any putative class member.

Response:

AstraZeneca objects to this Request on the grounds that it is overly broad, unduly burdensome and is not reasonably calculated to lead to the discovery of admissible evidence in that it is not limited to pricing, price reporting, AWP, the relationship between AWP and WAC, or any other issue in this litigation and on its face purports to require AstraZeneca to search for and produce all correspondence with any putative class member – which, in light of plaintiffs’ overly expansive purported class definition, includes entities or persons with which AstraZeneca may have had commercial relationships since 1991, without regard for whether such correspondence has any relationship to any issue in this litigation. **PFIZER, INC.'S RESPONSES AND OBJECTIONS TO PLAINTIFFS' THIRD SET OF
REQUESTS FOR PRODUCTION OF DOCUMENTS TO ALL DEFENDANTS**

Pursuant to Rules 26, 33 and 34 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the District of Massachusetts, and Case Management Orders 10 and 11, Pfizer, Inc. ("Pfizer"), by its undersigned counsel, hereby responds to Plaintiffs' Third Set of Requests for Production of Documents to All Defendants (the "Requests") as follows:
